BY virtue of a Resolution of the Board of Directors this day passed, the Finance Committee offer to the Stockholders of the Central Railroad Company of New-Jersey, at 85 per cent, one million five hundred the usand dollars of SEVEN PER CENT COUPON B 'NDS, redeemable May 1, 1975, ouvertible into the stock of the Cempany unit May 1, 1960, and entitled to the security of any mortrage that may be hereafter laid on the Railroad from Elizabethport to Phillipsburg, on the Delaware River.

The Ronds will be issued in sums of \$1,000 and \$500 each, and will be registered on the books of the Company in the name of the holder or as a Bond, payable to bearer, as the convenience of holders from time to time may require.

It may be unnecessary to call the attention of Stockholders to the prospects of this Road, or to repeat that it is the main Eastern outlet of three lines, all in rapid course of develorment; one leading to the Lackwamna Coal mines and Osweso, on Lake Chitario; one to the lebish Coal fields, and ultimately to Eric, Cleveland and the Great West; and mar sequiring the construction of only 35 miles of road to pierce the center of the Schwickill Coal Basin, and make a direct, unbroken line to Pittsburgh and Wheeling; nor need they be reminded that these lines are all free from break of gauge or transhipment; nor of the remarks bite coincidence that by this road the three Asthracite Coal regions are each breught within 135 miles of now-York, there not being 5 miles difference in distance between any two of them.

The partial opening in June, and anticipated completion in

will be issued. As soon as the same can be prepared Bonds will be bened in exchange for the installment receipts.

Subscribers can have the option of paying in full at any time upon giving notice at the office of the Company.

Non-payment of installments will give the Company the right to forfeir the unpul portion of the subscription and the discount allowed on the Bonds. JOHN T. JOHNSTON.

WILLIAM G. CREAMER.

We now offer to Railroad Companies the cheapest, simplest
and most efficient method of enabling the engineer of a locomotive to apply the entire brakes of a train that has ever been,
made. We have in our office a full-size model showing the
operation of this invention perfectly, to which we sak the attention of all persons interested in Railroads. It is needless to describe the adventages of giving the engineer the power to apply
the brakes. Suffice it to say there is hardly a railroad socident
occurs but the adoption and proper understanding of this invention would totally prevent or greatly mitigate. Its immediate
adoption is demanded as well by the interests of the Company
as the safety of persons and property conveyed by Railroads.
We offer every facility to Companies desirous of testing for
themselves the advantages of this method. For circulars and
other information apply at the office of the Jompany.
W. G. CREAMER, General Agent.
